The question may arise, how we can famish a machine at

1st. The profits on expensive machines are enermous; those
the Republicans were about as poweriess as if struck with lightning, on account of that decision. If that court is not struck with something worse than lightning, then I am mistaken in the effect of popular thunder. The free people of this country will not submit to have their Territories converted into slave States at the dictation of the Supreme Court of the United States.

MAYOR OF NEW YORK .- It may be of

some importance to know what "Fernandy Wud" means to do next in the game he has been playing for his self-aggrandizement, He returns from Charleston the most forlorn and forsaken of politicians, and will now confine his operations to the city of New York. He may have influence enough with the roughs in that city to make his future movements worth attention, but we imagine that what influence be once had, is gone. This man's movements are of no moment, nor his plans or purposes deserving of attention, except as they may indicate which he will attempt to accomplish with that large class in the city, who are ready to attempt, and are better pleased with desperate adventure, and are willing tools in the hands of politicians; and who are, in addition, very much under Woon's influence Wood has received a mortifying repulse and if anything could be more disgraceful than his abandonment of his official duties to run after the Convention at Charleston we should say that he had succeeded in showing it at that city. The country stands in greater danger of bad men in offices of responsibility and trust, than from any other source whatever. If the institutions of this republic ever fail or our freedom becomes anarchy, it will be owing to the elevation to places of power and influence of mere trading politicians, -unscrupulous, reckless men,-men of brains, but of no conscience, no principle. We know not hing of Mr. Woon that his own citizens have Family Grocery Store.

Being satisfied that the Ready Pay System is the most advantageous to the consumer, the subscriber has adopted it, and he will strictly earry out the principal in all cases.

Having been engaged in seiling Goods for the last four years for Messra. Prentice & Tombes, H. C. Tombes, and J. H. Thomas, Eagrs, who are probably the most experienced groces in the county, he disters himself that he can and will sell as good acticles in his line, and at as low prices as can be found at any establishment in the County.

Butter, Eggs, Lard, Fotatoes, Turnips, and almost everything the farmer has to sell, will be exchanged for goods at the same prices that I will sell for each.

Being satisfied that the Ready Pay System is the most advantaged in an adopted it, and the prices of now notity has not disclosed; but if we Judge of him from what is said, and upon what we read of his acts, and what he says himself, he is a very unfit man to be Mayor of New York, and a very singular politician. HOME TESTIMONY. HOME TESTIMONY.

HASTFORD, Trumball Co. O., March 7th, 1857.

I hereby certify that I have been dealing in the Graffenberg Medicines for the past year, and can truly say that I have never offered any medicines to the public that have met with the decided approbation of the people like these, particularly the Fills and Catholicon. They will readily perform all and mores than is promised for them. I have sold about fifty bottles of the Catholicon the past season, and I hear the best results in every case.

J. H. C. JOHNSON, Medical Agt.

Read what Dr. Bushnell says of the Graffenberg Medicines. Dr. B., is a physician of extensive practice, and one of the most successful in the county (Trumbull) in which he resides. "This certifies that I have used the Graffenberg pills and Marshall's Catholicon, sold here by J. H. C. Johnson, in my practice to my entire satisfaction. They are good medicines. Dr. G. W. BUSHNELL., Hartford, Trumbull Co. O., March 7, 1867.

I am a physician of thirty year's practice. My principal tudy has been diseases of females. They have generally builled study has been diseases of females, they have generally supported by the first of the materials composing Marshall's Uteriae Catholicon. I was pleased with them, gave them a fair trial, and found myself aboudantly successful—In my former practice I could only mittgate the symptoms of about half the cases, and could not cure one in ten. Now I can radically cure at least seventeen in twenty, and mitigate the rest. I consider Marshall's Uteriae Catholicon the greatest blessing to females I have met with.

Mr. H. B. Kingsley, Sir.—I have been selling the medicine of the Graefenberg Company for the last ten years, and have invariably found them to give great astinktion; and the pills I have sold to a great many families as regular as their tea

ne bottle than she did from a long course of medic l treat-sent by the most saillful physicians. Yours truly, Jan. 1, 1808. Janus Wilson. HEALTH OF AMERICAN WOMEN. Female irregularities, weakness, uterine displacements, and il lessi uterine difficulties and constitutional troubles of wo-con, are entirely cured by the Graefenberg Marshair's Uter-se Catholice.

It gives me great pleasure to estify to the invariable cura-ive action of the Greefenberg Mazahall's Uterice Catholicon in all cases of female disease, and to the skill and high moral character of the Medical Department of the Gesefenberg Company, Auburn Four Corners, Penn. I am a Methodist clergyman. My heart has fairly ached to witness the feelsh health of women, as 1 have traveled my dread preaching the Gospel. I thank feed, however, that 1 nave seen all these discuses give way to the Graefenberg Marshall's Uterine Catholicon, wherever it has been used.

No Family at this day can afford to do without a Sewing Machine.

Their great utility is now beyond question. An obstacle in the way of their general adoption, is a want of acquaictance with thequality and merits of the various patents new in market. The confident representations of interested agents, and the sorry experience of those who have purchased the single-thread, raveling machines, on the strength of those representations, have somewhat staken the public confidence. To avoid deception, a purchase should not be hastity made, or without full opportunities for a deliberate less of the respective merits of the different patents. One unerring guide may be relied upon, in selecting. The look sittich is the only desirable stirch taken. A Double Thread, Lock Stitch Machine, is one that you cannot well be deceived in. The

Wheeler & Wilson's Machine is one of this description, and for a Family Machine has more good points than any other in use. It has stood the test of time and experience, and occupins a higher place in public estimation, than any of its competitors. It infringes on no other patents, and has no injunctions hanging over it, as a score of cheap machines have. It has responsible local agents to make good all that is claimed for it, and to supply every thing needful to keep it in successful operation. Enlightened economy, and experience point to this as the cheapest machine now before the public. Its advantages are these, and if any one wishes to test them before purchasing, they are invited to do so a 1 its simplicity and beauty of construction.
